## **IN THE BEGINNING...**

The company was founded by Nat Clegg, or rather Nathaniel Clegg (to be precise). Nathaniel means “gift of god” and in turn gave name to the business. So.... We are not a religious group, alternative dress company or escort agency! We specialise in Fine Art, Jewellery, Web Site Design, Reiki healing & Budo.

Hopefully , that's all clear for everyone, lets move on...

## **AND SO HERE STARTETH THE**

## **PACKAGE-WEB SITE PACKAGES FOR SMALL BUSINESS**

So you only have enough time to run the business as it is...  
You don't want to spend much time or money on a web site,  
You are not a techno person...  
but you do realise that these days to be credible you need to have a website....

If this is more or less your situation then we might have something just for you!

## THE DEAL OR OUR OFFERINGS

We can **build you a web site**, using your images and where possible taking professional quality photographs. We really care about what the site looks

like. With a fine arts degree Nat, would be offended at the idea of producing something that is not beautiful as well as fit for purpose!

This will cost £900 and you can pay this in four monthly instalments of £225.

## PERSONAL SERVICE

What makes us different is we are clear about who we can serve that is small businesses.

We do not make big all singing web sites; we make simple beautiful sites that are purpose built to meet the needs of small businesses. It is a personal service when you email or call, you talk to Nat and he builds and manages your site. He gets to know your business and what you want and then creates it for you. If you want to change things Nat will change them for you and keep in regular contact. He is always available at the end of a phone as well as by email, he is a real person and there is no automated service!!!!

# “Angelic Hosts”

Because we know that you do not want to have to think about your site we will do it for you and every couple of months we will send you a note making some suggestions and giving you a report of the level of activity on your site. Most of the suggestions we make are free, we will not be trying to sell you additional service. Occasionally we might have some suggestions that have a cost – we try to keep costs to a minimum because we know that you want a simple site that is not going to get progressively expensive.

The monthly fee is for combined hosting and managing and is **£15 per month**. (This includes the cost of the hosting and what we call “mither tax” – so you can feel free to mither \* us at any time!)

## ANGELIC HOSTS!

We will find out what **domain names** are

available (usually you have to buy them for two years and renew them) By the way .co.uk is cheaper than .com

**Hosting** your website means paying the monthly rental on the server.  
**Managing** the website means we will talk with you about what you want your site to do and make sure it is doing it. So for example after your website is built you might decide that you want to add an additional page, or put some free downloads on your site or maybe add some email addresses linked to your site....
